## General Comments

Justin was eager to join our classroom and quickly immersed himself into the class routines, getting to know the students. He quickly helped with small groups and individuals (within the classroom setting), and did not shy away from any opportunities presented to him. He was able to help in the 5/6 classroom to see how they use vertical spaces (Trevor MacKenzie). He was able to observe the 7/8 class with their classroom teacher, the French teacher, a supply teacher, the arts teacher, the other 7/8 teacher during rotary. Justin went with the 7/8 class on a local school trip and was of assistance during this time. I wish Justin all the best in his future teacher endeavors.

I have reviewed this assessment with the Teacher Candidate before submission.

Yes
